Description

The machine made crystal Magma Vase features flowing lines and rock-solid foundations melding together to create a dramatic, yet functional design. The subtle creases are strategically placed to accentuate the beauty of the crystal via refraction, and make an overall balanced collection. *No lead content; Made in Czech Republic using state-of-the-art, ecologically clean glass "œCrystalite". Safe to use for consumption. *Minor air bubbles may be apparent and are expected with molten crystal products *Due to short curvature surface of the bowl, for better legibility of your personalization, the reversed engraving is done on the back side to be read from the top angle.
